DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5-13 are rejected under 35 U.S.C. 102(a) as being anticipated by JP 2004-69325. The '325 publication discloses the claimed invention, a hole inspection system for a eye drop container(paragraphs 0001-0003), where the container [2] is pressed by chuck pressing means (23) to blow air out of the hole and the pressure is determined in a connected sealed space (using sealing member 18) to calculate the hole diameter based upon the pressure and a threshold pressure (paragraphs 0015-0019). See entire document.

Response to Arguments

Applicant's arguments filed 20 March 2007 have been fully considered but they are not persuasive.

With respect to the JP '325 reference, an English language translation is required to perfect applicant's foreign priority date. 37 CFR 1.55 (a)(4).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
